## New Owyhee Hotel of Boise Will Be the Finest in Idaho

THE OWYHEE, BOISE'S NEW HOTEL.

Special to The Tribune.  
BOISE, Ida., March 8.—May 1 will see the formal opening of the Owyhee hotel in this city, now on the verge of completion, and which is considered one of the finest hostilities to be found in the northwest country. It will also, when opened, hold the distinction of being the leading hotel in the state of Idaho, and is destined to be the headquarters for future political convalescences, conventions and other state gatherings. Constructed along lines which the building believed would make it adequate to handling the increasing travel into this section of the intermountain country for years to come, the new Owyhee inaugurates the skyscraper era in Boise building history as well as furnishing the first metropolitan roof garden.  
This hotel was erected at a cost of \$350,000 by the Schubert Hotel company, recently incorporated under the laws of this state. The principal stockholders are Leo J. Falk of the Falk Mercantile company of Boise and C. W. Schubert, the latter a veteran hotel manager who has a wide acquaintance with the traveling public in the west and was for a number of years manager of the Idaho hotel of this city. Property of the Nathan Falk estate, located at the corner of Eleventh and Main streets, in the heart of the growing business center, was selected as the site of the new hotel. It has a commanding view of the Main street business thoroughfare as well as the entire Boise valley and surrounding mountains. The Owyhees to the south and the Boise mountains to the north.

Rising seven stories of native brown stone, trimmed with salmon-colored brick, with clean, clear and sharp architectural lines, the Owyhee hotel is an imposing structure. It contains 250 rooms, modern and complete with hot and cold running water and baths. The main entrance faces Main street and leads through a high arched lobby way to be decorated with palms, plants, etc., to the large lobby located in the center of the structure. This is provided with a mezzanine floor overlooking the office and capped with an arched glass roof. Lounge, seating, chairs and leather upholstered seats give the lobby an inviting appearance. To the east is found the elevator landing on the floors above and the spacious dining room below. A cafe opens off to the right. This will be finished in old English, with the big welcome fireplace. To the west is the smoking and lounging room for gentlemen, and the billiard room, also covered with an arched glass roof.

The hotel has been so constructed as to make it possible to close off or open up the floors above and the dining room, which will be finished in old English, with the big welcome fireplace. To the west is the smoking and lounging room for gentlemen, and the billiard room, also covered with an arched glass roof.

management to handle from 500 to 1000 banquet guests.  
This hostelry will boast of its own dairy ranch, installed for the purpose of supporting its table, and will also be operated to furnish the fresh food stuffs. It will, in addition, have a complete artesian well drilled in the basement and water for the entire building for all purposes will be secured from an artesian well drilled in the basement before the structure was started, which will flow 1200 gallons of absolutely pure water every hour.  
The Owyhee will take a ranking with the Idaho hotel when completed. For years the latter hostelry has been the big hotel of this state. However, the rapid growth of Boise assures the management of both leading hotels more and better accommodations are needed. No sooner will the Owyhee be completed than the Boise Hotel company will start the construction of a \$500,000 tourist hotel on the Piney block, opposite the capitol building, and which was purchased a year ago for \$100,000 and has since been held vacant exclusively for the purpose of erecting a big hotel upon it.

### ECONOMIZING AT EXPENSE OF THE INDIGENT POOR

The practice of the county commissioners of economizing at the expense of the indigent poor of this county was again in evidence during the month of February, according to the report of Paupers Clerk James Sabine. During the past month he paid out of the pauper fund \$300.00 less than was distributed for the relief of the poor during February, 1909.

In February of last year the sum of \$315.49 was paid out for the poor of the county. During the past month the amount so disbursed was \$285.00, of this amount \$183.65 was for railroad fares and rent, and \$237.25 was for groceries, coal and clothing. This was distributed among 329 families or 1650 persons.
